

confused?

luckily using palecio
you don't have to be.

intimidating?

with palecio it
doesn't have to be.

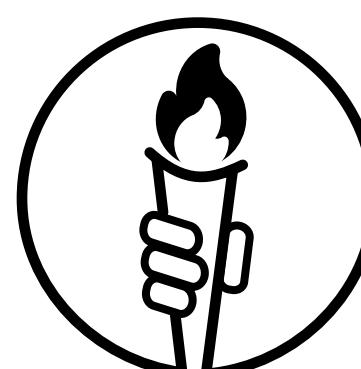

making code easier to learn.

company name: palecio

topic: learn programming, technology app.

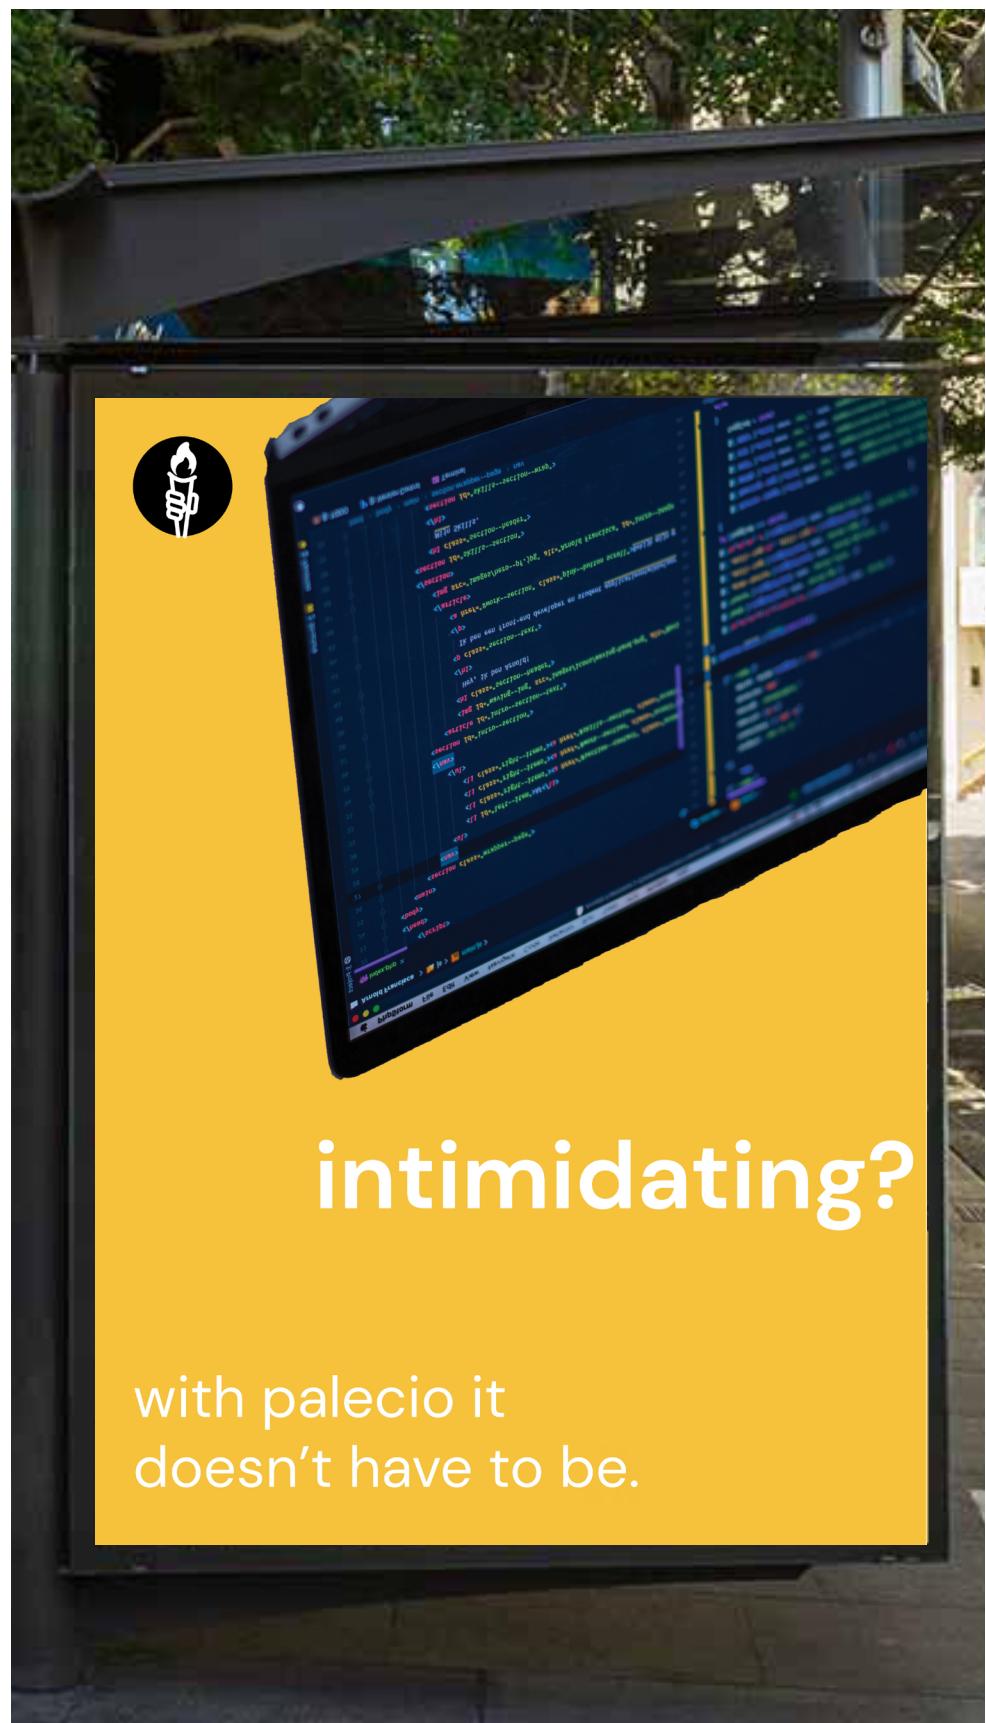

audience: people who don't know much about code or programming that want to learn in a more friendly way.

call to action: palecio provides a tool for anyone who wants to learn about computer programming and how the tools used everyday throughout the world work. Our goal is to lift the veil and show that code is not as intimidating as it seems and actually it is something anyone can learn about and use.

palecio

making code easier to learn

a friend somehow enabled
me to serve in an official capacity during

you would have been lynched

in China's Liaoning province, which
had been a hotbed of anti-communist
photography before joining

undergo "reeducation" in
China's capital, Harbin, just
as a young man in 1966.

He had the freedom to capture the
city's film, marauding Red
Guards' 'negative' scenes, all
as a "good" functionary," wrote
him in an [official biography](#).
